GEOLOGICAL LEGEND
Comstaff 1985
Cambrian
dr dolerite-porphyritic-andesine/labradorite laths
ba metasomatised basalts, dolerites and rare gabbros
tu hornfelsed lithic tuffaceous sandstones
si hornfelsed-highly magnetic volcanomict to lithic sandstones, siltstones and wackes
to hornfelsed and tourmalised volcanomict to lithic sandstones, siltstones and wackes.
qz tourmaline-microgranular quartz rock-thoroughly metasomatised argillaceous rocks
sa hornfelsed lithic to volcanomict sandstones, siltstones, wackes - little to no bedding
Middle Silurian?
py highly tourmalised quartz porphyry and greisen
gr quartz porphyry, porphyritic biotite granite, quartz feldspar porphyry
