

284-01

BLYTHE RIVER IRON MINES

Longitudinal Section on base line or
approximate centre line of Iron Ore body from South to North

Scales HORIZONTAL 2 CHAINS = 1 IN.
VERTICAL 60 FEET = 1 IN.

SOUTH

NORTH

Notes The River bed level being 94.16 above sea level, if 94.16, or say roughly 100, is deducted from levels given the depth down to river level will be the result. The base line shown does not extend to the extreme limits, at either end, to which iron ore outcrops on the Company's property

A. Craplin
