

LEGEND

Fluvioglacal deposits - see explanatory sheets in Appendix A for soil descriptions ML, CH etc. on logs.

Refer to Dwg. No. M1225/1-11 for further details.

NOTES

1. The section is drawn on the proposed final embankment centre line Refer Dwg. M1225/1-5.
 2. The chainage and offset of the pit and trench logs is measured perpendicular to the centre line.
 3. The pre-construction natural surface profile is based on Dwg. No. M147/1/7.
- * For general notes on foundation stripping, subgrade conditions and seepage control measures see Dwg. No. M1225/1-12.
