

Localities for Obsidianites:

1. Creeks running into the Interview River.
2. Amy Creek on the western fall of Heemskirk.
3. Nigger Creek near Thomas' Plains.
4. On Mount Balfour in slate country.
5. White Lead, Back Creek.
6. Springfield near Scottsdale - granite bed rock.
7. Long Plain.
8. Norfolk Range in tin drift.
9. Main Creek, Lisle.
10. Camden Gold Field and Diddleum.
11. At Moorina.
12. At the Pioneer Mine.
13. Tin Workings on the Wyniford River about a mile above Pioneer Mine.
14. On the table land up Tallywong Creek near Weldborough.
15. At St. Leonards.
16. Middleton's Creek, near Donaldson Range.
17. Derwent Creek on Hunt P.A. 9 miles from St. Helens and 2 miles south of Georges River.
18. At the Deep Lead Mine, 3 miles East of Hunt P.A. and 1 mile south of Georges River.
19. At the Union Mine, Weldborough, on Fancy Creek.
20. Fossil Creek, a tributary of Main Creek; 1½ miles north of above.
21. Cox Bight.
22. Supply Rivulet, River Tamar.
23. Amber Creek, near Gladstone.
24. Purdue Mine, near Gladstone.
25. From 7 miles North of Pieman Heads.
26. Schouten Main in flat ground below Gill's Mine.
27. Smith's Creek, Long Plain.
28. Mallinson's Workings near Scotia, Gladstone.
29. Mt. Munro, Cape Barren Island.
30. Rook's River, Cape Barren Island.
31. King Island, south of Sea Elephant River.
32. Liberator Tin Mine. Two.
33. Gould's Country on Section E & W Hall.

Localities for Darwin Glass:

- On East slopes of Mt. Darwin.
- On West slope near Macquarie Harbour.
- On Flannagan's Flat.

Localities for Nickel - Iron Meteorites:

- Castray River.
- Blue Tier.

TITLE:

OCCURRENCE OF OBSIDIANITES (GENERAL)

Localities for Obsidianites:

1. Creeks running into the Interview River.
2. Amy Creek on the western fall of Heemskirk.
3. Nigger Creek near Thomas' Plain.
4. On Mt. Balfour in slate country.
5. White Lead, Back Creek.
6. Springfield near Scottsdale -- granite bed rock.
7. Long Plain.
8. Norfolk Range in tin drift.
9. Main Creek, Lisle.
10. Camden Gold field and Diddleum.
11. At Moorina.
12. Pioneer Mine.
13. Tin workings on the Wyniford River about a mile above Pioneer Mine.
14. On the table land up Tallywong Creek near Weldborough.
15. At St. Leonards.
16. Middleton Creek, near Donaldson Range.
17. Derwent Creek on Hunt P.A. 9 miles from St. Helens and 2 miles south of Georges River.
18. At the Deep Lead Mine, 3 miles East of Hunt P.A. and 1 mile south of Georges River.
19. At the Union Mine, Weldborough, on Fancy Creek.
20. Fossil Creek, a tributary of Main Creek; $1\frac{1}{2}$ miles north of above.
21. Cox Bight.
22. Supply Rivulet, River Tamar.
23. Amber Creek, near Gladstone.
24. Purdue Mine near Gladstone.
25. From 7 miles North of Pieman Heads.
26. Schouten Main in flat ground below Gill's Mine.
27. Smith's Creek, Long Plain.
28. Mallinson's Workings near Scotia, Gladstone.
29. Mt. Munro, Cape Barren Island.
30. Rook's River, Cape Barren Island.
31. King Island, South of Sea Elephant River.
32. Liberator Tin Mine (two).
33. Gould's Country on section E. & W. Hall.
34. Lynchford.
35. Mt. Ramsay 1 mile N.

Localities for Darwin Glass:

- On East slopes of Mt. Darwin.
- On West slope near Macquarie Harbour.
- On Flannagan's Flat.

Localities for Nickel-Iron Meteorites:

- Castray River.
- Blue Tier.

TO ACCOMPANY MINERAL MAP.

2. Amy Creek on the western fall of Heemskirk.
3. Nigger Creek near Thomas' Plains.
4. On Mount Balfour in slate country.
5. White Lead, Back Creek.
6. Springfield near Scottsdale - granite bed rock.
7. Long Plain.
8. Norfolk Range in tin drift.
9. Main Creek, Lisle.
10. Camden Gold field and Diddleum.
11. At Moorina.
12. At the Pioneer Mine.
13. Tin workings on the Wyniford River about a mile above
Pioneer Mine.
14. On the table land up Tallywong Creek near Weldborough.
15. At St. Leonards.
16. Middleton's Creek, near Donaldson Range.
17. Derwent Creek on Hunt P.A. 9 miles from St. Helens
and 2 miles south of Georges River.
18. At the Deep Lead Mine, 3 miles East of Hunt P.A. and 1
mile south of Georges River.
19. At the Union Mine, Weldborough, on Fancy Creek.
20. Fossil Creek, a tributary of Main Creek: $1\frac{1}{2}$ miles north
of above.
21. Cox Bight.
22. Supply Rivulet, River Tamar.
23. Amber Creek, near Gladstone.
24. Purdue Mine, near Gladstone.
25. From 7 miles North of Pieman Heads.
26. Schouten Main in flat ground below Gill's Mine.
27. Smith's Creek, Long Plain.
28. Mallinson's Workings near Scotia, Gladstone.
29. Mt. Munro, Cape Barren Island.
30. Rook's River, Cape Barren Island.
31. King Island, south of Sea Elephant River.
32. Liberator Tin Mine. Two.
33. Gould's Country on Section E. & W. Hall.
34. Lynchford, Seratchem Creek, near school house, 3 chains
from station.
35. Mt. Ramsay, one mile north, 5 feet from surface, in
drift above tin wash.

Localities for Darwin Glass:

- On East slopes of Mt. Darwin.
- On West slope near Macquarie Harbour.
- On Flannagan's Flat.

Localities for Nickel - Iron Meteorites:

- Castray River.
- Blue Tier.
