MEMORANDUMUNDERGROUND WATER ON PROPERTY OF MRS. E. JONES
DYSART.

This property is situated about five miles from Dysart on a road to Broadmarsh about half a mile beyond the turn off from the Elderslie Road.

Almost the whole property is underlain by Triassic Sandstone and it is considered that supplies of underground water could be obtained at no great depth from a bore situated near the homestead.

(T.D. Hughes)
SENIOR GEOLOGIST.

The Director of Mines,
Department of Mines,
HOBART.
