MEMORANDUMABERFOYLE MINE

On the 2nd instant, I discussed with Mr. A.E. Dainton, Manager of the Aberfoyle Mine, certain aspects of future developments by the Company. Mr. Dainton is anxious to recommend to his Board that a certain programme of Diamond Drilling be carried out. Before this is done it is necessary that further geological work be done and definite sites selected for drill holes. As Geologist Robinson has recently made a report on the area it is suggested that he continue the investigation. Mr. Dainton is anxious that the recommendation should be made to the Board well before the end of the financial year; so that is most urgent that this work by Mr. Robinson be commenced as soon as possible.

(T.D. Hughes)
SENIOR GEOLOGIST

Mr. H.G.W. Keid,
Chief Geologist,
HOBART.
