

UNPUBLISHED REPORT 1968/07

Kaolin samples

by V. M. Threader

Kaolin samples for despatch to certain Japanese companies have been prepared and delivered to Mr A. Wilson of the Directorate of Industrial Development and Trade, Tasmanian Trade Promotion Branch.

The samples consisted of:

11 lb and 4½ lb samples of decomposed granite from The Gardens.

11 lb and 4½ lb samples of drift material from Tertiary deep leads (a composite sample from three separate localities).

[30 January 1968]
