

List of Unpublished Reports issued by the Tasmania Department of Mines, 1983

by E. L. Martin and M. J. Dix

1983/01	Final report on exploratory drilling the All Nations mine, Moina.	P. L. F. Collins	10.1.83
1983/02	Soil salinities at Port Arthur.	P. C. Stevenson	25.1.83
1983/03	Introductory notes for a survey of the coal resources of Tasmania.	C. A. Bacon	1.2.83
1983/04	The Cygnet coalfield.	C. A. Bacon	8.2.83
1983/05	The Kaoota (Sandfly) coalfield.	C. A. Bacon	11.2.83
1983/06	The Mt Lloyd coalfield.	C. A. Bacon	21.2.83
1983/07	The Merrywood coalfield.	C. A. Bacon	25.2.83
1983/08	The Strathblane, Hastings, Ida Bay, Moss Glen and Catamaran coalfields.	C. A. Bacon	21.2.83
1983/09	Site investigations at a proposed dam site on Nicholls Rivulet, near Cygnet.	D. J. Sloane	2.3.83
1983/10	Author index to Unpublished Reports issued by the Tasmania Department of Mines, 1982.	E. L. Martin	28.2.83
1983/11	The erosion of granite-derived soils in eastern and north-eastern Tasmania, with reference to forestry operations. Part 1: Hydrologic cycle, erosion, and previous investigations.	D. J. Sloane	30.3.83
1983/12	The erosion of granite-derived soils in eastern and north-eastern Tasmania, with reference to forestry operations. Part 2: Investigation of erosion at forestry coupe EL 1, Chain of Lagoons.	D. J. Sloane	30.3.83
1983/13	The erosion of granite-derived soils in eastern and north-eastern Tasmania, with reference to forestry operations. Part 3: Proposed forestry development in far north-east Tasmania.	D. J. Sloane	3.5.83
1983/14	Investigation of a leaking dam at Evandale.	W. L. Matthews	21.4.83
1983/15	Petrology of contact metamorphosed Mathinna Beds, near Trigonia Corner, Maria Island.	J. L. Everard	26.4.83
1983/16	First recorded occurrence of <i>Geisonoceras</i> sp. in Tasmania.	A. V. Brown B. F. Stait	28.4.83
1933/17	Gold in vegetation as a prospecting method in Tasmania.	W. E. Baker	10.5.83
1983/18	A diamond drill hole at The Quoin, south-east of Ross.	M. J. Clarke N. Farmer	10.5.83
1983/19	Pump tests on a water bore at Cygnet.	W. L. Matthews	26.5.83
1983/20	Site investigation for a proposed stormwater line, Lampton Park, Prince of Wales Bay, Hobart.	R. C. Donaldson D. J. Sloane	1.6.83
1983/21	Heavy minerals in Quaternary and Recent sands in Tasmania.	D. C. Green	17.6.83
1983/22	The Mount Christie–Stanhope coalfield.	C. A. Bacon	28.6.83
1983/23	Geological investigation of the Remount Refuse Disposal Project.	A. T. Moon	27.6.83
1983/24	Subsurface geological investigation of cracked houses in the Mowbray area, Launceston.	W. R. Moore	5.7.83
1983/25	FORTTRAN programs for the transfer of data to or from a Perkin-Elmer 3200 series minicomputer (Revision 1).	R. G. Richardson	4.7.83

1983/26	FORTRAN programs for verifying the areal distribution of data points (Revision 1).	R. G. Richardson	11.7.83
1983/27	A FORTRAN program for sorting areally distributed data to minimise plotting time (Revision 1).	R. G. Richardson	11.7.83
1983/28	A FORTRAN program for the drift correction of gravity data (Revision 3).	R. G. Richardson	11.7.83
1983/29	A FORTRAN program for calculating elevation differences from barometric pressure readings (Revision 1).	R. G. Richardson	11.7.83
1983/30	A FORTRAN program for selecting data from inside or outside a specified area (Revision 2).	R. G. Richardson	12.7.83
1983/31	FORTRAN programs for performing gravity reduction (Revision 1).	R. G. Richardson	13.7.83
1983/32	Conversion of computer text files for input to the Government Printer's phototypesetter.	E. L. Martin	12.7.83
1983/33	Coal intersections in a drill hole near Kempton.	C. A. Bacon	21.7.83
1983/34	The Fingal coalfield.	C. A. Bacon	27.7.83
1983/35	Luina and Wombat Flat exempt areas: a review of previous exploration and a reconnaissance survey of an aeromagnetic anomaly.	P. L. F. Collins	10.8.83
1983/36	Analysis of coal from the Duncan seam, Duncan Colliery, Fingal.	C. A. Bacon	5.8.83
1983/37	Computer calculation and modelling of Schlumberger configuration resistivity sounding.	J. W. Hudspeth	11.8.83
1983/38	Hardcopy plotting on the Geological Survey minicomputer.	R. G. Richardson	15.8.83
1983/39	Sinkholes at Railton railway station.	W. L. Matthews J. W. Hudspeth R. C. Donaldson	16. 8.83
1983/46	CARS — a computer assisted records system.	R. G. Richardson	19.8.83
1983/41	The Mt Nicholas coalfield.	C. A. Bacon	31.8.83
1983/42	Slope stability and subsurface investigation of a subdivision at Deviot.	W. R. Moore	2.3.83
1983/43	A theoretical basis for gravity residual specification (Revision 1).	R. G. Richardson	8.9.83
1983/44	A FORTRAN program for plotting areally distributed gravity (or other) data (Revision 1).	R. G. Richardson	9.9.83
1983/45	A FORTRAN program for plotting straight-line cross sections (Revision 1).	R. G. Richardson	12.9.83
1983/46	The Department of Mines coal exploration programme, Fingal Tier.	V. M. Threader C. A. Bacon	9.12.83
1983/47	Stability investigations at Robert Street, Beauty Point.	D. J. Sloane	19.9.83
1983/48	FORTRAN programs for the implementation of MIRLOCH.	R. G. Richardson	21.9.83
1983/49	Conversion of computer text files for input to the Government Printer's phototypesetter (Revision 1).	E. L. Martin	27.9.83
1983/50	Subsurface investigation of a proposed house site at Hillwood, East Tamar.	W. R. Moore	3.10.83
1983/51	Groundwater prospects at Keenan's property, South Arm.	D. J. Sloane	29.9.83
1983/52	MIRLOCH — a mineral resources location and characterisation system.	P. L. F. Collins	5.10.83
1983/53	Magnetic investigation at Dennistoun as an aid to siting a groundwater bore.	J. W. Hudspeth	6.10.83
1983/54	Sand and gravel resources on Lease/Licence areas at Bellamy Road near Forth.	V. M. Threader	26.10.83
1983/55	Basalt reserves on Kapai Hill, north-east Tasmania.	V. M. Threader	27.10.83
1933/56	Seismic refraction survey of a proposed railway cutting east of Conara.	A. T. Moon	14.11.83
1983/57	Definition of the Eddystone Batholith.	N. J. Turner P. W. Baillie M. P. McClenaghan	15.11.83

1983/58	The Parmeener Super-Group at Musselroe Bay: Drilling results and possible Permian volcanic rocks.	P. W. Baillie	16.11.83
1983/59	Magnetic investigation at Squares Marsh as an aid to siting a groundwater bore.	J. W. Hudspeth R. C. Donaldson	17.11.83
1983/60	A FORTRAN program for calculating the gravitational attraction of polygonal bodies with infinite strike length.	R. G. Richardson	21.11.83
1983/61	The areal distribution of rock-units during Early Palaeozoic times.	E. Williams	29.11.83
1983/62	CARS — A computer assisted records system (Revision 1).	R. G. Richardson	25.11.83
1983/63	Sand resources on P. L. Burns lease, Tebrakunna Road, near Pioneer.	V. M. Threader	29.11.83
1983/64	The groundwater resources of the Southport Lagoon Spit.	P. C. Stevenson	4.12.83
1983/65	Water supply in the Huntsmans Cap area, Nicholas Range.	W. L. Matthews	2.12.83
1983/66	Refraction seismic investigation of an exploratory groundwater bore in dolerite at Rhyndaston.	J. W. Hudspeth	5.12.83
1983/67	Preliminary report on natural gamma logging of the Coles Bay borehole.	J. W. Hudspeth	7.12.83
1983/68	Geological map of Blackman River, Mike Howes Marsh to Old Tier Road.	S. M. Forsyth	8.12.83
1983/69	A FORTRAN program for calculating the gravitational attraction of polygonal bodies with infinite strike length (Revision 1).	R. G. Richardson	12.12.83
1983/70	A FORTRAN program for the drift-correction of gravity data (Revision 4).	R. G. Richardson	13.12.83
1983/71	Groundwater investigations at the St Helens golf course.	D. J. Sloane	20.12.83
1983/72	Groundwater investigations at Coastal Reserves on the East Coast of Tasmania.	D. J. Sloane	22.12.83

[4 January 1984]
