1984/80. Geological compilation of the Zeehan-Waratah area,
Dundas Trough, at 1:100 000 scale

A.V. Brown

The enclosed 1:100 000 geological map is based on a compilation of all the systematic and reconnaissance mapping undertaken for Geological Survey Bulletin 62 together with regional mapping from surrounding Geological Atlas Series maps previously published and in press.

This map will appear as Figure 3 in Bulletin 62 (Cartographic Office Plan 5060) and is issued before the 1984/85 summer field season at the request of a number of exploration companies.
