

The gravity base station established on Flinders Island is located on the grounds of the Flinders Island Airport at the foot of a light pole adjacent to an airport shed. The shed and light pole are adjacent to a grass car park. Photograph 1 was taken looking south from the airport terminal, directly outside the public toilets. Photograph 2 was taken closer to the base station, looking east from within the grass parking area. Photographs 3 and 4 were taken very close to the base station and show the exact base station location on the light pole base. The base station is located at 148.0035E, 40.0935S in AGD66 coordinates, at an elevation of 10.8 ± 0.1 meters.
