

Depth of fathometer transducer below mean waterline

Forward Transducer	7 ft
Aft Transducer	13 ft

Distance from Raydist antenna to shotpoint

Sixfold off-end	800 ft
Singlefold split	3500 ft

(Variations for specific shotpoints given in detail with data transmitted to Central Processing Office)

Charge Size	25 lb, 50 lb
Average shot depth	6 ft
Average shot offset	20 ft
Average detector depth	35 ft
