Drilling Operations

No wells were drilled during the period.

Geophysical Operations

No geophysical activities were undertaken during the period.

Geophysical and Geological Interpretation

A final interpretation has been made over the Pipipa prospect and a drilling location selected.

The following seven horizons, listed in stratigraphical succession, have been mapped by depth and time.

Horizon	51	(green)	Base of the Limestone Section, Late Miocene
"	4	(orange)	Early Miocene
"	37	(dark blue)	Near Top Oligocene
"	22	(purple)	Oligocene
"	17	(pink)	Top Demons Bluff, Late Eocene
"	6	(yellow)	Top Eastern View Coal Measures, Late Eocene
"	2	(red)	Upper M-Diversus seismic marker, Early Eocene

Drilling Operations

No wells were drilled during the period.

Geophysical Operations

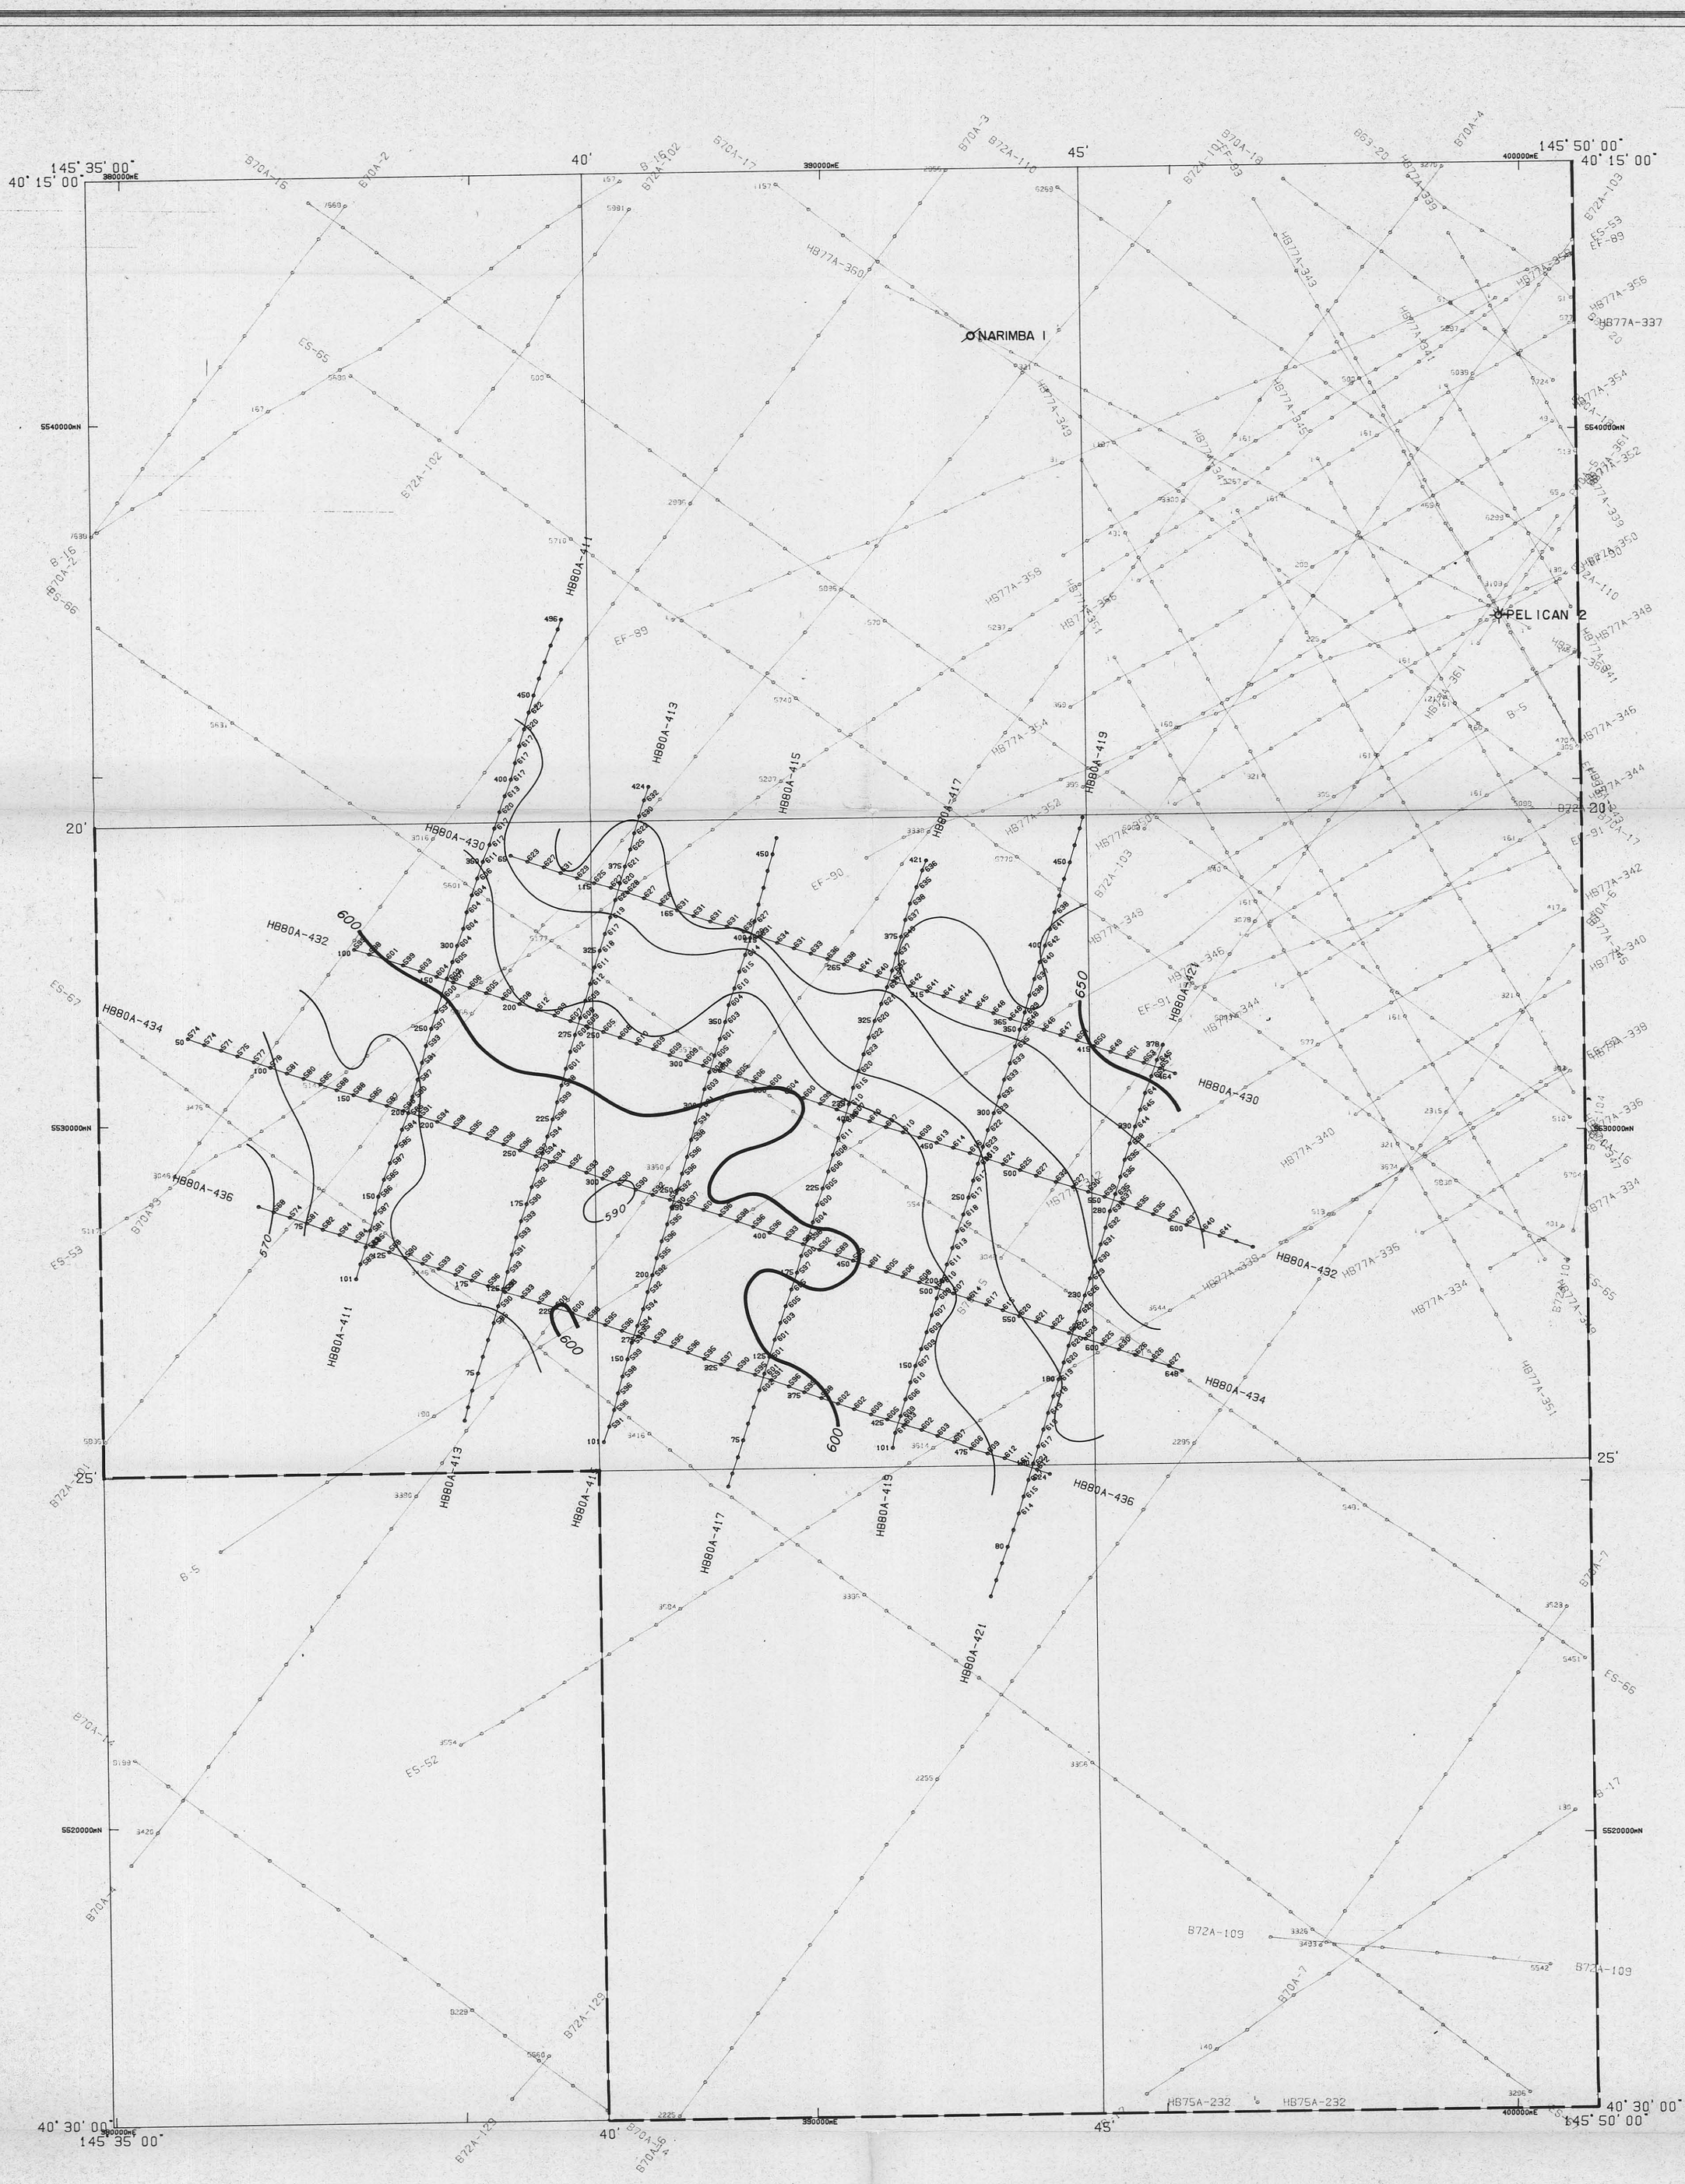

Migration of the experimental reprocessing of final sections was completed.

Geophysical and Geological Interpretation

A final interpretation has been made over the Pookanah Prospect area using the processed data from the HB80A seismic survey. The following six horizons, listed in stratigraphical succession, have been mapped by depth and time.

Horizon	17	(orange)	Top Demons Bluff
"	6	(yellow)	Top Eastern View Coal Measures
"	30	(blue)	Intra Eastern View Unconformity
"	46	(light green)	Top Upper Cretaceous
"	45	(green)	Top Otway Group
"	29	(red)	Basement.
