

SECTION C - OPERATIONAL DATA1. Statistics

Prospect	: North East Furneaux Marine Seismic Survey
Operational Period	: 22nd May to 23rd May, 1973
Time spent on recording	: 28 hrs. 15 minutes - Reflection : 10 hrs. 53 minutes - Refraction
Time lost due to bad weather	: Nil
Time lost due to other reasons, (includes supplies, equipment and survey failures)	: Nil
Field tapes used	: 20
Water depth range	: 50-450 fathoms
Total production mileage	: 105.19 - Reflection : 37.03 - Refraction
Production shotpoints	: 3388 - Reflection : 596 - Refraction
Autofires	: Nil
Sonabuys used	: 20
