

through definition of section thickness, depth to magnetic basement and general geologic attitudes of reflecting horizons.

C. Non-Subsidy Data

The field data included in this addendum consists of 108 miles of "sparker" reconnaissance profiling and 35 miles of "air-gun" detail CDP lines. These lines were obtained in Permits Vic/P3 and Vic/P4 within a 50 mile radius of Kingfish A-1 and Halibut A-1 wells in the Gippsland Basin. Shooting dates were August 29th and 30th, 1969.
