

T.M. PROJECTION C.M. 110° SCALE FACTOR 0,996  
INTERNATIONAL SPHEROID

**BATHYMETRY IN METRES**  
contour interval 500 m  
(the 200 m isobath has been added)

- 0 - 1000 m
- 1000 - 2000 m
- 2000 - 4000 m
- 4000 - 6000 m

Bathymetry is derived from Petrel 1973 Survey, using a constant water velocity of 1500 m/sec.  
Bathymetric trends were derived from the Bathymetric map of the Southeast Indian Ocean by D.E. Hayes & J.R. Conolly 1971 (unpublished)
