

## CONTENTS

|  | <u>PAGE</u> |
|--|-------------|
| INTRODUCTION   | 1           |
| PALEO GEOGRAPHY  | 2           |
| Early Cretaceous   | 2           |
| Late Cretaceous (Top Campanian)                                  | 3           |
| Latest Cretaceous (Top Maastrichtian)                            | 3           |
| Latest Paleocene   | 4           |
| Latest Eocene (Top Eocene Unconformity)                          | 4           |
| Latest Oligocene   | 5           |
| Middle Miocene   | 6           |
| ADDITIONAL REGIONAL GEOLOGIC MAPS                                | 7           |
| Structure/Subcrop, Top Latrobe Unconformity                      | 7           |
| Base Latrobe Delta-Front Facies                                  | 7           |
| Isopach: Top Latrobe-Base Delta-Front Facies                     | 8           |
| Gurnard Sandstone Distribution/Thickness                         | 8           |
| Depth to Thermal Maturity  | 8           |
| Total Minus Residual Organic Carbon (Latrobe Group)              | 9           |
| Total Minus Residual Organic Carbon (Latrobe Delta-Front Facies) | 9           |
| FAVORABLE EXPLORATORY AREAS (by Stratigraphic Unit)              | 11          |
| Lower Latrobe Group (Campanian)-Structural Plays                 | 11          |
| Lower-Latrobe Group (Campanian)-Stratigraphic Plays              | 11          |
| Upper-Latrobe Group-Structural Plays                             | 12          |
| Top Latrobe Unconformity-Structural Plays                        | 12          |
| Top Latrobe Unconformity-Stratigraphic Plays                     | 13          |
| Gurnard Formation - Structural Plays                             | 13          |
| Gurnard Formation - Stratigraphic Plays                          | 13          |
| Lakes Entrance Fm. and Gippsland Limestone                       | 14          |
