Reprocessed Seismic Lines (BMR)	95
Source-Rock Evaluation	99
Introduction	
Types of Organic Matter	
Source-Rock Chemistry	
Maturation of Organic Matter	
Geothermal Gradient	
Pyrolysis	
Gippsland Basin Comparison	
Conclusions	
Abstracts of Significant Papers	118
A new look at the Gippsland Basin	
Bass Basin stratigraphy	
Bass Basin surveying and deep seismic information	
Cretaceous to Paleocene structural and stratigraphic leads in the Bass Basin	
Development of concepts of hydrocarbon generation from terrestrial sources	
Dynamic models of lithosphere extension, with reference to sedimentary basin formation	
Extensional basin-forming structures in the Bass Basin	
Otway margin - a Bass Basin and Gippsland comparison	
Structural concepts in extensional basin interpretation
