

EASTERN AREA

The area of the permit to the east of the Manatee, Penguin and Seal anomalies has also been mapped at the Lower M. diversus seismic horizon level maps, as well as at the Top Eastern View Coal Measures seismic horizon level, Map and Map 3. An isochron - Top Eastern View Coal Measures to Lower M. diversus seismic horizon - has also been constructed, Map 7. A number of leads have been identified. These leads are not described and seismic acquisition is not recommended at this stage.
