

INTRODUCTION

This report is an evaluation of the prospectivity of the Eocene, Paleocene and Cretaceous sections within the Bass Basin over Amoco interest licenses T/14P, T/18P and T/22P. The evaluation was prepared to fulfill the work program commitments for Year 3 in T/22P, renewal Year 2 in T/14P, and renewal Year 1 in T/18P and to support action recommendations in the licenses.
