

- 2 -

Zone 1: 5250.0' - 6878.5' (1600.2-2096.6 meters)
Zone 2: 6879.0' - 6987.5' (2096.7-2129.8 meters - igneous
interval)
Zone 3: 6988.0' - 7377.5' (2130.0-2248.7 meters)
Zone 4: 7378.0' - 8320.5' (2248.8-2536.1 meters)
Zone 5: 8321.0' - 10280.0' (2536.3-3133.4 meters)

The Reservoir Summary Tables (Attachment 1) tabulate meters of interpreted sandstone passing the indicated porosity and water saturation cutoffs.

Average porosity, water saturation, and volume of shale is listed in Attachment 2 for interpreted sandstone. Intervals less than a foot (0.3 meters) thick are not listed.

Attachment 3 summarizes the parameters used in processing.
