

- 2430 - 2433 10 Sandstone: As above.
90 Claystone: As above.
Tr Coal: As above.
- 2433 - 2436 20 Claystone: As above.
80 Sandstone: As above, fine grained, well sorted, with a trace weak calcareous cement, clean to occasionally moderate argillaceous matrix, good porosity, no show, dull orange mineral fluorescence.
- 2436 - 2439 20 Claystone: As above.
80 Sandstone: As above, fine grained, well sorted, no show.
- 2439 - 2442 90 Sandstone: As above, locally well cemented by sideritic cement, fine grained, subangular to subround, well sorted, trace to abundant white matrix, good porosity, locally nil to trace porosity.
10 Claystone: As above.
- 2442 - 2445 10 Claystone: As above.
90 Sandstone: As above.
- 2445 - 2448 40 Claystone: Pale brown to light brown, slightly silty, non calcareous, carbonaceous specks, soft to firm, dispersive.
60 Sandstone: Colourless to white, fine grained, occasionally very fine to medium, subround to round, well sorted, spherical to subspherical, trace to moderate sideritic cement, common white interstitial clay, trace mica, friable to occasionally hard when well cemented, trace to poor occasionally fair porosity, no show, common orange mineral fluorescence.
- 2448 - 2451 20 Coal: Black, subvitreous, hard to very hard, brittle, argillaceous in part, blocky to platy, grading to carbonaceous Shale in part.
30 Sandstone: As above.
50 Claystone: As above, becoming predominantly light brown.
- 2451 - 2454 50 Coal: As above.
40 Sandstone: As above, becoming predominantly moderately cemented with siderite.
10 Claystone: As above.
- 2454 - 2457 20 Coal: As above.
40 Claystone: Off white to light brown, non calcareous, silty, trace carbonaceous specks in part, micromicaceous in part, soft, dispersive.
40 Sandstone: Colourless, white, occasionally stained light brown or orange brown, very fine to very coarse, poorly sorted, angular to round, spherical, weak to moderate siderite cement, off white interstitial matrix, trace mica, friable to hard, nil to poor porosity, no show, 10 to 20% bright orange mineral fluorescence.
- 2457 - 2460 60 Claystone: Pale brown to light grey brown, occasionally off white, silty, non calcareous, occasionally carbonaceous specks, soft,
