

- 2568 - 2571 80 Sandstone: Colourless to white, fine to predominantly medium grained, subrounded, well sorted, spherical, weak siliceous cement, trace white interstitial clay, trace mica, friable to loose quartz, fair porosity, no show.  
20 Claystone: Brown, non calcareous, micromicaceous, carbonaceous specks, firm, subfissile.
- 2571 - 2574 20 Claystone: Brown to light brown, off white, silty, non calcareous, carbonaceous in part, soft to firm, sticky in part, micromicaceous.  
80 Sandstone: Off white, colourless, translucent, fine to medium, well sorted, subangular to subround, spherical, weak siliceous cement, trace white argillaceous matrix, trace mica, friable, poor to fair porosity, no show.
- 2574 - 2577 60 Claystone: As above, brown, becoming very silty, grading to argillaceous Siltstone.  
40 Sandstone: As above.  
Tr Dolomite: Medium grey brown, cryptocrystalline, very hard, angular, slightly argillaceous.
- 2577 - 2580 20 Sandstone: As above.  
80 Claystone: As above, becoming predominantly brown to grey brown, firm, laminated, subfissile, silty, micromicaceous, carbonaceous microlaminations.
- 2580 - 2583 20 Coal: Black to brownish black, dull, earthy, firm to hard, argillaceous, grading to carbonaceous Shale.  
70 Claystone: As above, brown to dark brown, grey brown.  
10 Siltstone: Light brown to grey brown, argillaceous, micromicaceous, carbonaceous, non calcareous, firm, blocky.
- 2583 - 2586 20 Coal: As above.  
10 Siltstone: As above.  
40 Claystone: As above.  
30 Sandstone: Light brown, fine to medium grained, subround to round, well sorted, spherical, weak siliceous cement, brown and white argillaceous matrix, friable, poor visual porosity, no show.
- 2586 - 2589 10 Coal: As above.  
20 Siltstone: As above.  
20 Sandstone: As above.  
50 Claystone: As above.
- 2589 - 2592 10 Claystone: As above.  
90 Sandstone: Colourless, white, translucent to transparent, very fine to very coarse, very poorly sorted, angular to subround, subspherical, common bit fractured grains, weak siliceous cement, white argillaceous matrix in part, trace mica, friable to loose, fair to good porosity, no show, trace mineral fluorescence.
