

MRC9304011-ACM

1710 - 1713	70	Claystone: As above.
	30	Sandstone: Colourless, translucent, fine grained, angular, well sorted loose quartz, good sphericity, weak siliceous cement, moderate interstitial white clay, clean in part, friable aggregates, good to fair inferred porosity, no show.
1713 - 1716	60	Claystone: As above, no show.
	30	Sandstone: As above.
	10	Coal: Black to brown black, firm, blocky to platy, lignitic.
1716 - 1719	60	Sandstone: As above, no show.
	30	Claystone: As above.
	10	Coal: As above.
1719 - 1722	50	Sandstone: White to colourless, translucent to transparent, fine to occasionally medium, angular, poor to moderate sphericity, moderate to well sorted, weak siliceous cement, abundant white argillaceous matrix, friable, poor porosity. FLUORESCENCE: trace patchy moderately bright yellow white, moderate milky white crush cut, trace residue ring.
	20	Coal: As above.
	30	Claystone: As above.
1722 - 1725	60	Sandstone: As above, no show.
	30	Claystone: As above.
	10	Coal: As above.
1725 - 1728	40	Sandstone: As above, very fine to medium, occasionally coarse, moderately to poorly sorted, trace mica and pyrite, poor porosity. Trace show as above.
	50	Claystone: As above.
	10	Coal: As above.
1728 - 1731	30	Sandstone: As above, very fine to medium, occasionally coarse, no show.
	60	Claystone: As above.
	10	Coal: As above.
1731 - 1734	30	Sandstone: Colourless to white, very fine to fine grained, well sorted, angular, spherical, weak siliceous cement, white argillaceous matrix, trace mica, friable, poor to fair inferred porosity. FLUORESCENCE 10% spotted dull to moderately bright yellow, weak crush cut, trace residue.
	60	Claystone: As above.
	10	Coal: As above.
1734 - 1737	70	Sandstone: Colourless, translucent, very fine to very coarse, predominantly fine, subangular to subround, poorly sorted, fair sphericity, trace siliceous cement, white to brown argillaceous matrix, trace mica, predominantly loose, good porosity, no show.
	20	Claystone: As above.
	10	Coal: As above.
1737 - 1740	20	Sandstone: As above, no show.
	20	Coal: Black, occasionally dark brown, dull, firm, blocky, occasionally argillaceous.
	60	Claystone: Light brown, silty in part, carbonaceous specks in part, soft, plastic, dispersive.
