

1824 - 1827	30	Sandstone: Light brown to off white to colourless, fine grained, occasionally very fine grained, angular to subround, subspherical to spherical, weak siliceous cement, common white and brown argillaceous matrix and carbonaceous microlaminae, trace mica, friable, trace to nil porosity, no show.
	30	Siltstone: Off white to white to light grey brown, argillaceous in part with a trace mica, locally carbonaceous, firm to occasionally hard, no show.
	40	Claystone: As above, becoming off white to white in part.
1827 - 1830	60	Sandstone: Colourless, fine grained, occasional coarse grains, angular to subangular, subspherical, weak calcareous cement, common to abundant white argillaceous matrix, trace mica, trace altered feldspars, friable, trace to poor porosity, no show.
	20	Siltstone: As above.
	20	Claystone: As above.
	Tr	Coal: Black.
1830 - 1833	50	Sandstone: As above, no show.
	20	Siltstone: As above.
	30	Claystone: As above.
1833 - 1836	20	Sandstone: As above, no show.
	20	Claystone: As above.
	60	Siltstone: As above.
1836 - 1839	50	Sandstone: As above, no show.
	40	Siltstone: As above.
	10	Claystone: As above.
1839 - 1842	10	Coal: Black, dull, firm to hard, blocky.
	60	Siltstone: As above, slightly calcareous/dolomitic, argillaceous in part.
	30	Claystone: Off white to light brown, non calcareous, micromicaceous with carbonaceous specks and laminae, soft, dispersive.
1842 - 1845	10	Coal: As above.
	40	Claystone: As above.
	40	Siltstone: As above.
	10	Sandstone: Off white, fine grained, subangular, well sorted, subspherical, moderate dolomitic/calcareous cement, clay matrix, trace mica and feldspar, friable to hard, no porosity, no show.
1845 - 1848	20	Sandstone: As above, no show.
	10	Siltstone: As above.
	70	Claystone: As above, predominantly light grey brown, and very dispersive.
	Tr	Coal: As above.
1848 - 1851	10	Coal: As above.
	10	Sandstone: As above, no show.
	80	Claystone: As above, predominantly light grey brown, brown in part.
1851 - 1854	10	Coal: As above.
	90	Claystone: As above, light grey brown to brown, slightly silty in part, non calcareous, micromicaceous, carbonaceous specks and microlaminae, soft, very dispersive.
