LOGARITHMIC TIME SPEED AND DISTANCE SCALE

Use of units with logarithmic time speed and distance scale

TO FIND SPEED (in knots) or  
DISTANCE (in miles) or  
TIME (in hours) use the point  
of speed or distance on the  
outer scale and the point of  
time on the inner scale.

TO FIND DISTANCE (in miles) or  
TIME (in hours) use the point  
of speed or distance on the  
inner scale and the point of  
time on the outer scale.
