

DRILLING DATA:

Cores No. 11, 12, and 13 have been cut.

Core No. 11	7433-7453 feet	Cut 20 feet	Rec. 20 feet
Core No. 12	7877-7892 feet	Cut 15 feet	Rec. zero (damaged core barrel)
Core No. 13	7903-7914 feet	Cut 11 feet	Rec. 5 feet

Minor gas readings have been observed including some CO₂ from 7000-7080 feet.

Drilling rates tend to indicate top of survey indicated seismic basement 200-300 feet.

IES was also run, but this was not conclusive as to basement. Drilling will continue below 7914 feet.
