

5. Logging and Surveys

## (i) Electric Logging:

371015

Log	Interval (feet)	Scale (Inches to 100 feet)
SP/GR/ISF/S	3256- 645	2 (SP/GR/ISF) 5 (SP/ISF/S)
SP/ISF/S	9455-3224	2 (SP/ISF only) 5 (SP/ISF/S)
CAL/GR/FDC/CNL	9448-3224	2 and 5
HDT	9448-5500	Recorded at 10 Interpreted log at 2 and 5
CAL	3245- 645	5

Copies of all logs are in Enclosure 2.

- (ii) Penetration Rate and Gas Logs: Penetration rates, gas chromatographic analysis and total gas measurements were recorded from 693 feet to total depth.
- (iii) Deviation Surveys: The location and results of Totco surveys are shown on the composite well log.
- (iv) Temperature Surveys: None run. BHT recordings were taken on electrical logging runs.
- (v) Other Well Surveys: A velocity survey was conducted at total depth (9440 feet). See Appendix 6.
