

- 10250-10260 80% lithic quartzose sandstone, very slightly calcareous, greenish cast.
20% siltstone, light grey, cream and brown.
Trace of black carbonaceous shale.
No fluorescence. Tight.
- 10260-10270 As above
- 10270-10280 As above.
- 10280-10290 50% silt; grey.
50% lithic quartzose, chloritic, sandstone, cream to light green,
Some carbonaceous pebbles incorporated with this medium grained sandstone.
No fluorescence and no cut.
- 10290-10300 70% lithic sandstone; as above
30% silt grey and shale grey. Traces red and green variegated shale.
No fluorescence.
- 10300-10310 As above.
- 10310-10320 As above.
- 10320-10330 50% lithic sandstone; as above.
50% silt; grey and grey brown, slight carbonaceous, and shale grey as above.
Strong trace of red and green variegated shale.
No fluorescence.
- 10330-10340 60% lithic sandstone; as above, very chloritic, non calcareous.
40% grey, slightly carbonaceous, siltstone, and grey shale.
Strong trace of red and green variegated shale.
No fluorescence.
- 10340-10350 70% lithic sandstone; as above, chloritic, non calcareous.
30% siltstone and shale as above.
Trace red shale.
No fluorescence.
- 10350-10360 30% lithic sandstone; as above.
70% siltstone and shale as above.
- 10360-10370 As above.
- 10370-10380 30% lithic sandstone; as above
70% siltstone and shale; siltstone is grey, brown and greenish grey, non calcareous, slightly carbonaceous, shale is red, variegated, red and green and black carbonaceous. Tight.
No fluorescence.
- 10380-10390 70% lithic sandstone; as above.
20% silt; light grey
10% shale; dark grey, tight.
No fluorescence.
- 10390-10400 As above.
- 10400-10410 60% lithic sandstone; as above, very chloritic
40% silt and shale; as above
Tight.
Trace amber fluorescence.
- 10410-10420 70% lithic sandstone; as above, very chloritic, tight.
30% silt and shale as above.
No fluorescence.
- 10420-10430 As above but sandstone up to coarse grained occasional small chert.
- 10430-10440 As above.
- 10440-10445 As above with strong trace of orange quartzitic (cavings?).
