

DEPTH	%	SAMPLE DESCRIPTION
8300-8310	70 30	<u>Amphibolite</u> , as above <u>Siltstone</u> , light grey Trace <u>coal</u> , as above dolerite
8310-8320	80 20	<u>Sandstone</u> , light grey very fine to fine grained quartz, siliceous, tight <u>Amphibolite</u>
8320-8330	50 40 10	<u>Sandstone</u> , light grey very fine to fine grained quartz, secondary siliceous tight <u>Amphibolite</u> <u>Siliceous rock</u> , light grey mottled
8330-8340	50 40 10	<u>Sandstone</u> , light grey, fine to very fine, tight, overgrown, as above <u>Siltstone</u> , light grey, mottled, as above <u>Amphibolite</u>
8340-8350	50 30 20	<u>Sandstone</u> , light grey to slight green grey, very fine to fine fairly to poorly sorted, kaolinized matrix to secondary quartz, tight. <u>Amphibolite</u> Grey mottled <u>siliceous rock</u>
8350-8360	60 20 20	<u>Sandstone</u> , light grey to fine quartz kaoline matrix Mottled <u>siliceous rock</u> <u>Amphibolite</u>
8360-8370	60 20 20	<u>Siliceous rock</u> grading to <u>siltstone</u> medium grey <u>Sandstone</u> , light grey <u>Amphibolite</u>
8370-8380	50 40 10	<u>Siltstone</u> , grey to mottled <u>Amphibolite</u> <u>Sandstone</u>
8380-8390	60 30 10	<u>Siltstone</u> , as above, grey to brown pyritic <u>Amphibolite</u> <u>Sandstone</u>
8390-8400	60 35 5	<u>Siltstone</u> , as above, grey to brown micaceous, pyritic <u>Amphibolite</u> <u>Sandstone</u>
8400-8410	70 30	<u>Amphibolite</u> , as above, chloritic <u>Siltstone</u> , grey to brown pyritic micaceous grading to contact rock
8410-8420	70 30	<u>Amphibolite</u> <u>Siltstone</u> , grey to brown, pyritic, micaceous Trace <u>Sandstone</u> , light grey
8420-8430	80 20	<u>Amphibolite</u> <u>Siltstone</u> , grey soft brown harder <u>mica</u> Trace <u>Coal</u>
8430-8440	70 30	<u>Amphibolite</u> feldspar hornblende, chloritised <u>Siltstone</u> , predominately grey soft some brown pyritic Trace <u>sandstone</u> , very fine, white tight
8440-8450	65 35	<u>Amphibolite</u> <u>Siltstone</u> , medium to dark grey, soft, pyritic, some brown, fissile Trace <u>sandstone</u> , white, tight
8450-8460	70 30	<u>Siltstone</u> , medium to dark grey, medium soft, some brown, also light grey and mottled, lamination, pyritic <u>Amphibolite</u>
8460-8470	50 50	<u>Siltstone</u> , medium to dark grey, moderately soft, some light grey <u>pyrite</u> <u>Amphibolite</u> Trace <u>pyrite</u>
