PELICAN #1

27-3-70.

J.K. DAVIDSON.

- 12,

5820-5830 50% siltst ↑ 20% ss ↑ - glauconitic sand, now poorly-sorted - coarse sand in it, no cut.

5830-5840 60% siltst ↑ 40% ss ↑ - all 3 sands poorly sorted - glauconitic pebbles (c. sand grade) - ^{from ss.} ~~from ss.~~ (type all) ss cut. no cut.

5840-5861 Core #2

5861-5880 70% siltst ↑ 30% ss, fine, calc, lt grey.

5880-5910 30% siltst ↑ 70% ss ↑, Tr marl, Tr ^{loose fossils} ~~loose fossils~~ as previously described.

5910-5920 70% siltst ↑ 20% ss ↑ 10% ^{loose quartz grains} ~~loose quartz grains~~ up to granule grade. Tr marl and Tr ^{loose fossils} ~~loose fossils~~ coarse pyrite.

5920-5930 70% siltst ↑ 20% ss ↑ 10% marl Tr ^{coarse} ~~coarse~~ pyrite.

5930-5960 50% siltst ↑ 50% ss ↑ + ^{white fine ss, dolom.} ~~white fine ss, dolom.~~ Tr ^{loose fossils} ~~loose fossils~~ (forams) + Tr pyrite.

5960-5990 50% siltst ↑ 30% ss ↑ 10% ^{marl} ~~marl~~ 10% ^{loose fossils} ~~loose fossils~~ (forams and bryozoans).

5990-6020 60% siltst ↑ 30% ss ↑ 10% ^{loose fossils} ~~loose fossils~~ ↑

6020-6050 80% siltst ↑ 10% ss ↑ 10% ^{marl} ~~marl~~ ^{loose fossils} ~~loose fossils~~.

6050-6080 ↑

6080-6110 ↑

6110-6140 ↑

6140-6170 ↑

6170-6200 50% siltst, 30% ss ↑ 10% ^{marl} ~~marl~~, 10% ^{loose fossils} ~~loose fossils~~ ↑

6200-6220 as - 6020-6050.

6220-6240 60% siltst ↑ 20% ss ↑ 10% ^{lt grey sh} ~~lt grey sh~~ 10% ^{loose fossils} ~~loose fossils~~.

6240-6250 80% siltst ↑ 10% ss ↑ 10% ^{marl} ~~marl~~ & ^{loose fossils} ~~loose fossils~~ ↑

6250-6270 40% coal, black, pyritic, ^{smaller} ~~smaller~~, cut siltst, high percent of ^{shells} ~~shells~~.

6270-6280 10% ^{coal} ~~coal~~ & 10% ^{marl} ~~marl~~ ^{loose fossils} ~~loose fossils~~ ↑

6280-6300 10% ^{coal} ~~coal~~ ↑ 10% ^{marl} ~~marl~~ ^{loose fossils} ~~loose fossils~~ ↑ 10% ^{ss} ~~ss~~ coarse ss, ^{abundant} ~~abundant~~, subrounded.

6300-6320 Tr ^{coal} ~~coal~~ & 10% siltst ↑ 20% ss ↑ Tr ^{loose fossils} ~~loose fossils~~.
