

7000-7010	70	Sandstone as above
	20	Siltstone as above
	10	Coal
		Trace cavings
7010-7020	50	Sandstone as above
	30	Siltstone as above
	10	Coal
	10	Cavings
7020-7030		As above
7030-7040	70	As above, some of the sand is fine grained, well sorted and friable.
	20	Siltstone as above
	10	Marl (Cavings)
7040-7060		As above
7060-7070	60	Sandstone as above, mostly fine as above.
	30	Siltstone as above
	10	Coal
7070-7080	70	Sandstone as above
	20	Siltstone as above
	10	Coal as above
7080-7090		As in 7060-7070.
7090-7100		As above
7100-7110	80	Sandstone as above
	20	Siltstone as above
		Trace cavings
7110-7120	30	Sandstone as above
	50	Siltstone as above
	10	Coal
	10	Cavings
7120-7130	60	Sandstone as above
	30	Siltstone as above
	10	Cavings, fine so are interbedded with the siltstone - some of the sandstone is a bit dirty with carbonaceous fragments and streaks of siltstone.
7130-7140		As above
7140-7150	60	Sandstone as above, very dirty, clay choked
	30	Siltstone as above
	10	Cavings
7150-7160	90	Coal as above
	10	Siltstone as above. Trace cavings
7160-7170		Trace coal.
	30	Siltstone as above
	70	Cavings. Trip sample
7170-7180	40	Siltstone as above
	50	Coal as above
	10	Cavings
7180-7190	10	Sandstone as above
	40	Siltstone as above
	10	Coal as above
	40	Cavings
7190-7210	30	Sandstone, medium grained, subrounded, to rounded, well sorted clean, small amounts of dolomitic matrix
	40	Siltstone as above
	10	Coal as above
	20	Cavings
