5760'-5790' 50% Sandstone : as above  
30% Siltstone : as above  
20% Cavings  
+ Trace dolomite

5790'-5820' 50% Sandstone : as above  
40% Siltstone : as above  
10% Cavings

5820'-5850' 50% Sandstone : as above  
40% Siltstone : as above  
10% Cavings : as above

Stopped drilling 1730 hrs. 8/5/72 P.O.H.  
Commenced drilling 0100 hrs 9/5/72

5850'-5880' 50% Sandstone : as above  
50% Siltstone : as above

5880'-5910' 50% Sandstone : buff, pale brown to dark reddish brown,  
fine to medium grained, quartzose, glauconitic, moderate  
sorting, sub angular, poor porosity, well cemented, hard.  
50% Siltstone : grey - medium to light greyish red and  
brownish grey occasionally light olive grey to medium grained  
(grades into sandstone) well sorted, sub angular to sub  
rounded, medium to poor porosity, hard, fossiliferous, pyritic

5910'-5940' 50% Sandstone : as above + clear quartzose and medium grained,  
good porosity.  
50% Siltstone : as above

5940'-5970' 40% Sandstone : as above  
60% Siltstone : as above

5970'-6000' 50% Sandstone : as above  
50% Siltstone : as above

6000'-6030' 10% Sandstone : Quartz grains, average diameter.  
2mm, unconsolidated  
50% Sandstone : as above, including quartzose, medium to  
coarse sand  
40% Siltstone : as above

6030'-6060' 70% Sandstone: quartz, clear to frosted, unconsolidated,  
sub angular to sub rounded, as above  
20% Sandstone : as above  
10% Siltstone : as above

6060'-6090' 50% Sandstone : buff, brown etc. as above  
50% Siltstone : as above
