

II. FIELD OPERATIONS RECAP (continued)

1984. See Appendix A, Daily Operations Logs, of this report for details of operation.

Dismantling of the Maxiran base stations was accomplished on 18 July 1984. The base station equipment was stored in Devonport. Dismantling of the Maxiran mobile equipment began 19 July and was completed on 20 July 1984. At the request of TRITON, the Maxiran towers and hardware remained erected on board the M/V BASS TIDE. The Maxiran mobile equipment was removed from the vessel and stored at a TRITON warehouse in Welshpool, Victoria.

Two ONA base operators were released from this survey on 19 July 1984. The ONA mobile operator was released on 21 July, and the ONA party chief/mobile operator completed his assignment and was released on 23 July 1984.
