

PLATE 3: 2322-2331 m Reflected Light
 The grey material in this plate is asphaltic bitumen - probably
 gilsonite from the drilling mud.
 Field Dimensions 0.26 mm x 0.18 mm

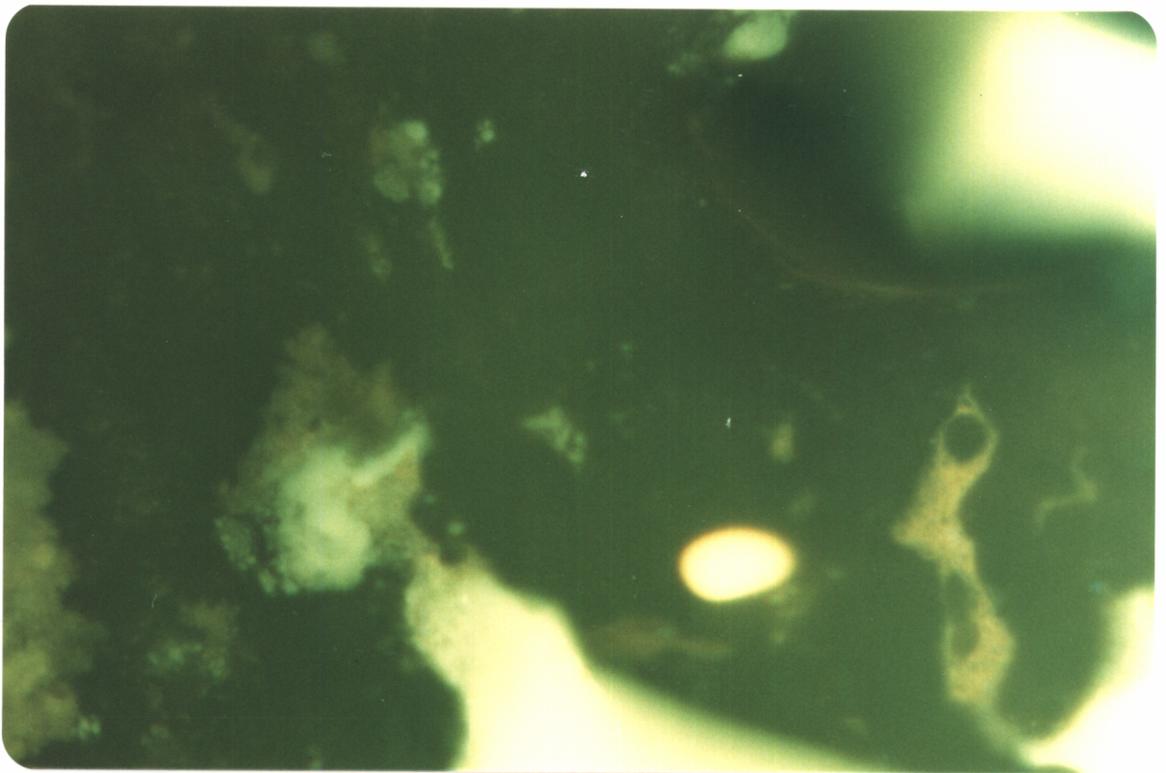

PLATE 4: 2322-2331 m Fluorescence Mode
 Same f.o.v. as Plate 3 showing the dull fluorescence of the
 bitumen and the intense fluorescing oil included in the bitumen
 agglomerate.
