LAND TENURE INDEX INFORMATION has been compiled by the Lands Department with assistance from the Forestry Commission. Land tenure is correct to 15.11.89. Due to limitations of scale some small areas of land tenure within built-up areas or of less than two hectares are not depicted. Contours are designed to indicate the general topographic outline. The location of a particular land status does not imply right of entry or use. Boundaries of Crown land extend to low water mark. For full particulars, users are requested to consult the Registrar General's Department or the Lands Department.
