

- 30 - 33 feet Disseminated ore
 33 - 43 feet Compact ore
 43 - 45 feet Heavily mineralised disseminated ore
 45 - 47 feet Slightly mineralised disseminated ore
 55 - 62 feet Light grey shale
 62 - 67 feet Fine-grained tuff
 67 - 69 feet Coarse-grained tuff
 69 - 93 feet Fine-grained tuff
 93 - 103 feet Medium-grained grey tuff with a little pyrite
 103 - 109 feet Medium and coarse-grained tuff, somewhat cavernous, carbonates
 109 - 132 feet Fine and coarse-grained tuff, cavernous.

Department of Mines Laboratory, Launceston, Certificate of 10th May, 1957.
