**Marketing/Promotion of Serpentine/Stichtite on EL's 13/2002 & 19/2002 period ending 18 July 2005**

A number of tonnes (30t) of serpentinite/stichtite were shipped to Hong Kong for trial cutting and polishing, and testing for potential use as lapidary, carving and paving material.

Three trips were made to China (including Hong Kong) during the reporting period because of problems with the waxing and polishing of the serpentinite/stichtite samples. The stichtite blebs were too dark and the material also became brittle as it dehydrated. The licensee proposes to look for samples with larger stichtite blebs during the current reporting period to try and overcome the first problem.

A number of other overseas trips were also undertaken during the reporting period for marketing/promotion of the stichtite/serpentinite. Trips included USA (x2 – including the Tucson Show), and to mineral shows in Germany and Japan.

An example of how our samples are being tested in the US marketplace is included in the following 3 pages.

## THE BOOK OF STONES

WHO THEY ARE & WHAT THEY TEACH

ROBERT SIMMONS & NAISHA AHSIAN  
with contributions by Hazel Raven

### The Book of Stones Is a Major Hit!

It sold over 22,000 copies in the first ten months, & it WON the prestigious COVR Award! To order yours, or a gift for a friend, call 1-802-476-4775.

Visit Us on the WEB!  
[heavenandearth.ws](http://heavenandearth.ws)

[avenandearthjewelry.com](http://avenandearthjewelry.com)

Check out our entire jewelry catalog, one-of-a-kind items, special stones, sale items, articles and more! A NEW mineral section is being added soon!

#### Send us your email address!

We're starting to send special offers, new articles and new stone information to our email list. If you want to get on that list, send a note with your email address to us at [info@heavenandearth.ws](mailto:info@heavenandearth.ws)

#### Visit Us!

If you would like to come to our new offices to pick out stones or jewelry in person, we can now accept a limited number of visitors, by appointment only. Because of the need to dedicate staff to visitors, a minimum purchase is required. Call us!

#### Use Discrimination

As always, we emphasize that the information in this mailing regarding the metaphysical properties of stones is intuitive, and not scientifically verified. This field is one of speculation and exploration, and individuals are encouraged to use discrimination to determine what is true for them. We cannot guarantee any results with any stone or jewelry item. We advocate individual responsibility for one's exploration of these ideas, and we do not advocate the use of stones as a substitute for medical or psychological care. Our stones are not intended to treat or cure any disease.

## The Crystal Conference™

May 17-20 2007, Ashland, Oregon

Call 802-476-4775 NOW to receive our Information Kit!

Join Us for the Greatest-Ever Gathering of the World Crystal Community!

[www.thecrystalconference.com](http://www.thecrystalconference.com)

There's excitement in the air around Ashland, Oregon these days. Maybe it's the change of seasons, or the energies from nearby Mt. Shasta. Or maybe it's the wave of the future coming in, starting to lift the vibration of the place where the worlds best-known crystal teachers, and a lot of the world's most amazing crystals, will converge next May.

The Crystal Conference 2007 will take place on May 17-20, 2007, at the Windmill Inn in Ashland Oregon. The four-day event will feature in-depth half-day workshops from a menu of presenters that extend across the spectrum of metaphysical arts and sciences related to the spiritual healing and consciousness-awakening properties of minerals, gemstones and crystals. Teachers and attendees will converge from all over the globe to share information and experiences in an atmosphere charged with the currents of the stones.

The Crystal Conference is a four-day event that consists of three days of half-day experiential workshops with each of six different presenters. Authors, healers, mediums, shamans and explorers of the technologies of consciousness have taken and will take the Crystal Conference stage. Since this is a teaching event rather than an expo, the Crystal Conference limits enrollment to no more than 300 people. In addition to the main workshops, there are special events such as concerts and a crystal tool-making workshop in which participants make their own stone energy pieces, combining an array of high-vibration minerals, and take them home at no cost. Another Crystal Conference attraction is the vending area, where everything from giant geodes to metaphysical jewelry is available.

But the main reason people attend is the learning and experiences that happen. The

Crystal Conference has always been able to attract the leading teachers in the field, and the 2007 event promises to be a banner year. Topping the marquis will be Melody, author of the *Love Is in the Earth* book series. She will present an evening talk and workshop at the beginning of the conference, and will gift attendees with some very special new stones.

Next on the list of attractions are Robert Simmons and Naisha Ahsian, authors of the new best-selling pictorial metaphysical crystal encyclopedia, *The Book of Stones*. Each of them will present a separate half-day workshop. Robert will lead the attendees in an experiential venture into the domain of the high-vibration visionary stones of interdimensional travel and consciousness transformation. He will speak of his new explorations in the use of such stones for the "reconfiguration of the crystalline attunement pattern of our bodies," explaining the connection of certain stones to such legendary icons as the Holy Grail. In addition, attendees will give and receive body layouts with rare stones that resonate with the "new higher frequencies of our future selves."

Naisha Ahsian will offer both a half-day workshop and one of the optional full-day intensives that attendees can elect to take on the "pre-conference" day, Thursday, May 17. Her half-day workshop will explore crystal grids, doorways and other energetic structures. Participants will learn to utilize the fourteen Bravais lattices of crystalline struc-

# SALE 50% OFF Australian Kunzite Hearts and Shapes

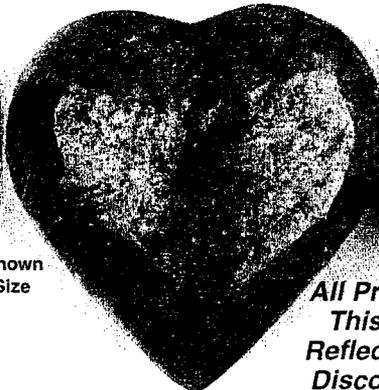

The new Australian Kunzite embodies all Kunzite's traits of opening the heart to Divine and human love, and it is especially valuable because it brings the additional capacities of flexibility and adaptability. Though love is clear in its desires and unflinching in its commitment, it must also, like the water that is its symbol, be able in each moment to flow with changing conditions. This is the essence of 'radical acceptance,' an essential trait for expressing love in this world. One must adhere to love while releasing all concepts of how it will be expressed. This frees love to manifest in the ways which produce the greatest benefit for all." —RS

Kunzite  
"Flying Saucers"

These are not spheres! They're double-domed round cabochons that look like flying saucers. Great for pocket pieces, body layouts, meditation, desk tops.

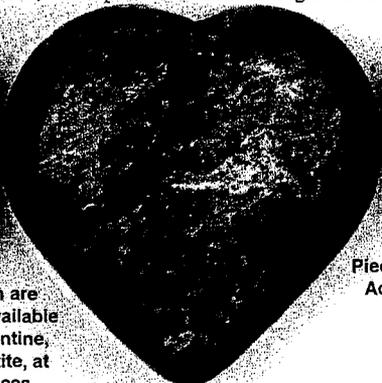

# SALE 50% OFF Serpentine/Stichtite Hearts and Shapes

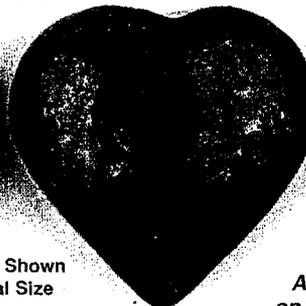

"The combination of Serpentine and Stichtite can be a powerful aid to spiritual opening, activating the kundalini channel and allowing one to bring energies up from the base chakra, as well as down through the crown. Serpentine/Stichtite is also a stone of dreams, opening the inner domains and making one's dream perceptions more vivid and memorable. Serpentine Stichtite has the capacity to 'clear the channels' for communication with one's inner teachers, and to open access to interdimensional travel. This is perhaps because of its simultaneous stimulation of the heart and crown chakras, which allows one to open conscious awareness to greater inner vistas while riding the love vibration, which permeates all of the higher inner domains." —RS
