

LEGEND

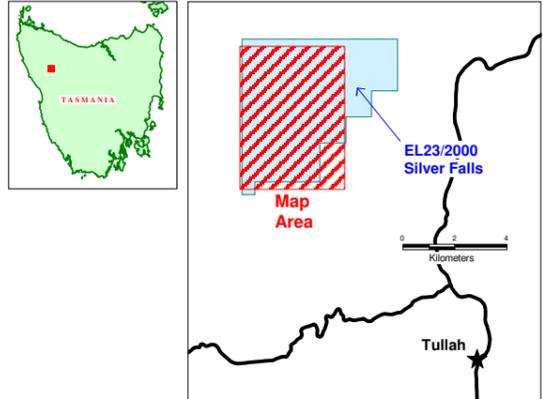

Quaternary

- Fluvioglacial. Predominantly pebbles and boulders of quartzite and Owen Conglomerate

Cambrian

- Brown-grey siltstone and quartz-muscovite sandstone
- Volcaniclastic sandstone
- Grey-black siltstone/shale unit
- Fine grained to coarse grained volcaniclastic sandstone, arkosic sandstone and minor siltstone. Feldspar-quartz phytic
- Quartz-feldspar phytic, crystal rich coarse grained sandstone and pumiceous sandstone. Minor porphyritic felsic volcanics and crystal-lithic tuff
- Felsic vitric-crystal tuff/pumiceous breccia
- Quartz muscovite sandstone, dolomitic siltstone and quartzite
- Pale pink-brown-green, thick bedded to laminated variably micaceous siltstone and lithicwacke
- Fine grained to weakly quartz-phyric rhyolite (Pinnacles Rhyolite)
