Summary of activities completed

Due to the external administration and transfer of licence tenure of Western Metals Limited, no field work was undertaken. Western Metals Limited was released from external administration on 18 November 2005.

The new directors have received the data from the administrators and the extension of term was granted on 21 January 2006.

General data review has been undertaken only and discussions held with mining consultants with a view to engaging specialists to review the data and plan the next phase of work.

Although administration work and general review of data has occurred – Western Metals Limited has not recorded this expenditure against the RL.
