

- Quaternary
- Tertiary basalt
- Devonian Dalcoath Granite
- Ordovician sediments, dominantly calcareous sandstone, siltstone

- Early Cambrian sediments, dominantly sandstone and conglomerate
- Mid Cambrian, dominantly lavas and intrusives
- Mid Cambrian, dominantly volcanoclastics

- VTEM flight lines with profiled response
- Anomalous VTEM response

APPENDIX A
 Round Hill EL42/2006
 Geology and VTEM flight lines showing mid time response profile
 February 2008
 1 : 20,000
