REFER TO SALMONS VEIN SECTION

Break. Change in direction

\$321 83
RBE 7
+112m
2m
Relative level
Grades diluted to, if width not greater than 2m.

Possible ore 221 802 tonnes at 0.3% Sn

Probable ore 433 367 tonnes at 1.0% Sn

Resource block of branch veins.

Resource block based on surface and adit geochemistry. Probable/possible ore categories based on drillhole intercepts only 975 883 t at 0.87% Sn
