

# LEGEND FOR GEOLOGICAL MAPS

LATE CAMBRIAN - QUATERNARY  
EARLY ORDOVICIAN

**Qa** Alluvial deposits

**Qg** Glacial deposits

**Coo** Siliciclastic  
Sandstone, gravel and  
conglomerate  
"Owen conglomerate"

CAMBRIAN

## WEST AND NORTH OF HENTY FAULT

**Cd** Shale, siltstone, dolomite  
Feldspar and quartz-phyric  
volcanics and volcanics.  
Siltstone and black mudstone  
"Dundas Group"

**Ccv** Feldspar - phyric volcanics  
Shale, siltstone  
Basalt

## EAST AND SOUTH OF HENTY FAULT

**Cf** Black mudstone and sandstone  
"Farrell Slate"  
**Ct** Feldspar and quartz-phyric  
volcaniclastics, lavas and  
intrusives, andesitic volcaniclastics  
and breccia with jasper and  
carbonate  
"Tyndall Group"

**Chf** Black mudstone, siltstone  
Andesitic and Basaltic volcanics,  
Gabbro and ultramafics  
"Henty River Sequence"

**Ccv** Feldspar-phyric volcanics  
Shale, siltstone  
Andesitic lavas and breccias  
"Central Volcanic Sequence"

CAMBRIAN

## INTRUSIVE ROCKS

**Cb** Basalt

**Cgt** Granite
