This report supercedes all previously published reports associated with Laboratory Job: 24110439

Results contained within this report apply only to the samples analysed and only then as received.

Any result enclosed in brackets is the result obtained from re-sampling and hence the subsequent analytical result. Duplicate analysis is reported separately

All pages have been quality checked and approved for final release.

2.3  
(2.6) e.g., Indicates that the original result is 2.3 and result obtained after resampling and a second analysis is 2.6
