

- LEGEND**
- Inferred limit of significant Tertiary sedimentation
 - Isopachs indicating thickness of Tertiary-Quaternary sediments
 - Depth to basement (Dolerite unless otherwise indicated)
 - Hole not bottomed
 - TERTIARY (Eocene-Miocene) - Quaternary Tertiary mostly obscured by Pleistocene - Recent alluvium and superficial deposits
 - TERTIARY (Pliocene) Basalt
 - JURASSIC - Dolerite
 - JURASSIC - Predominately Dolerite
 - TRIASSIC - Felspathic Sandstone
 - TRIASSIC - Knocklofty Sandstone
 - PERMIAN - Ferntree Mudstone
