

DEPTH	STRATIGRAPHIC DESCRIPTION
0-5	<u>Silty clay</u> , medium brown, coarsely textured, moderately compacted, scattered orange clay inclusions, scattered clear and yellow quartz grains.
5-10	<u>Silty sand</u> , clear, smokey, yellow, fine to medium grained, sub-angular, poorly sorted quartz, very dirty, common light yellow and brown silty and clayey interstitial material, rare mica, minute carbonaceous fragments, loosely compacted.
10-15	<u>Silty clay</u> , light yellow and brown, coarse textured, moderately compacted, rare carbonaceous specks, rare finely divided mica.
15-20	<u>Silt</u> , very light brown, coarse textured, loosely compacted, common clear, finely grained quartz set in white and yellow silt matrix.
20-25	<u>Clay</u> , light brown and yellow, coarsely textured, moderately compacted, rare to scattered finely divided mica, rare quartz grain inclusions.
25-30	<u>Silt</u> , light yellow and brown, coarse textured, loosely to moderately compacted.
30-35	<u>Clay</u> , white, minor orange, finely textured, moderately to well compacted, rare finely divided mica.
35-40	<u>Clay</u> , as 30-35 above, but orange to brown.
40-45	<u>Clay</u> , white minor yellow, coarse textured, moderately compacted, rare to scattered finely divided mica.
45-50	<u>Clay</u> , as 40-45 above.
50-55	<u>Silt</u> , light brown, yellow, coarsely textured, loosely compacted, scattered clear fine to medium quartz grains, rare white clay fragments.
55-60	<u>Silty clay</u> , white to light grey, minor yellow, coarsely textured, moderately compacted.
60-65	<u>Silty clay</u> , mid grey, coarsely textured, moderately compacted, minor orange clay.
65-70	<u>Silt</u> , light grey, coarsely textured, moderately compacted, scattered clear quartz - fine grains.
70-75	<u>Clay</u> , dark brown, medium textured, well compacted, scattered minute white clay inclusions
75-80	<u>Silt</u> , medium grey, coarsely textured, loosely to moderately compacted, scattered clear quartz, finely grained and with white clay inclusions.
80-85	<u>Silt</u> , as 75-80 above.
85-90	<u>Silt</u> , as 75-80 above. Occasional large pebbles.
90-95	<u>Silt</u> , as 75-80 above but quartz grains becoming more common.
