

DEPTH	STRATIGRAPHIC DESCRIPTION
0-5	<u>Sandy Silt</u> , light grey, common, clear, minor yellow, brown and orange, fine grained, sub-rounded, poorly sorted quartz, set in a light grey silty matrix, coarsely textured, moderately compacted.
5-10	<u>Sandy Clay</u> , light brown and light orange-brown, common, clear and minor pink and light brown, fine grained, sub-angular, poorly sorted quartz set in clay matrix, coarsely textured, moderately compacted.
10-15	<u>Clay</u> , scattered medium grey, orange-brown, minor dark reddish-brown stringers, scattered carbonaceous wood fragments, scattered coarse grained, sub-rounded, poorly sorted, grains of clear, yellow and orange quartz, rare pyrite rosette, scattered rounded dark reddish-brown ferruginous nodules, coarsely textured, moderately compacted.
15-20	<u>Clay</u> , light orange, minor yellow and very light grey stringers, scattered to common dark reddish-brown ferruginous and yellow limonitic nodules and inclusions, medium textured, moderately compacted.
20-25	<u>Clay</u> , as 15-20 above, scattered coarse grained light orange quartz.
25-30	<u>Clay</u> , as 20-25 above.
30-35	<u>Clay</u> , as 20-25 above.
35-40	<u>Clay</u> , as 20-25 above, ferruginous nodules up to 1/4" diameter, occasional carbonaceous wood fragments.
40-80	Missing
80-85	<u>Clay</u> , mottled, white, light brown, orange, yellow, minor red, scattered to rare dark reddish-brown ferruginous rounded nodules and orange-yellow limonitic angular inclusions, finely textured, moderately compacted.
85-90	<u>Clay</u> , as 80-85 above.
90-95	<u>Clay</u> , as 85-90 above.
95-100	<u>Clay</u> , as 85-90 above.
100-105	<u>Clay</u> , as 85-90 above.
105-110	<u>Clay</u> , as 85-90 above.
110-115	<u>Clay</u> , as 85-90 above.
115-120	<u>Clay</u> , mottled, light, medium, dark brown and grey, white orange, yellow, rare red specks, rare yellow-orange limonitic fragments (cavings?)
120-125	<u>Clay</u> , as 80-85 above.
125-130	<u>Clay</u> , light grey, orange stringers, scattered red streaks and patches, finely textured, moderately compacted.
130-135	<u>Clay</u> , as 120-125 above, scattered limonitic coated clay inclusions, rare carbonaceous wood fragments.
135-140	<u>Clay</u> , mottled orange, white, light to medium grey, light medium and dark brown, scattered red streaks, medium textured, moderately compacted.
