

DEPTH	STRATIGRAPHIC DESCRIPTION
285-290	<u>Sand</u> , as 270-275 above, except fine to medium grained.
290-295	<u>Clay</u> , mottled light fawn, medium brown, orange-brown, orange, white and red, scattered to common carbonaceous wood fragments, occasional limonitic? coatings, rare fragments of angular quartz and quartzite, finely to medium textured, moderately compacted.
295-300	<u>Clay</u> , as 290-295 above, except rare carbonaceous wood fragments and scattered very coarse grained sub-rounded quartz.
300-305	<u>Clay</u> , mottled light, medium and dark brown, orange-brown, bright orange and white, scattered to common limonitic coated dark reddish-brown hard ferruginous inclusions, rare coarse grained quartz, finely to medium textured, moderately compacted.
305-310	<u>Clay</u> , as 290-295 above, except no quartz or quartzite grains and rare carbonaceous wood fragments.
310-315	<u>Clay</u> , as 305-310 above, scattered silty lenses.
315-320	<u>Clay</u> , mottled, dark grey-brown, orange-brown, bright orange, red, light fawn, yellow and white, rare patches of silt, medium textured, moderately compacted.
320-325	<u>Clay</u> , as 315-320 above, rare carbonaceous wood fragments.
325-330	<u>Clay</u> , as 320-325 above, occasional quartz grains.
330-335	<u>Clay</u> , as 325-330 above.
335-340	<u>Clay</u> , as 315-320 above.
340-345	<u>Clay</u> , as 320-325 above.
345-350	<u>Clay</u> , as 315-320 above, common light brown silt stringers.
350-355	<u>Clay</u> , mottled, medium brown, orange-brown, orange, yellow, white, scattered light brown silt lenses, occasional sideritic coated dark reddish-brown ferruginous clay inclusions, rare coarse grained quartz, rare to scattered carbonaceous wood fragments, finely to medium textured, moderately compacted.
355-360	<u>Clay</u> , as 350-355 above.
360-365	<u>Clay</u> , as 350-355 above, commonly silty, coarse textured.
365-370	<u>Clay</u> , as 360-365 above.
370-375	<u>Silt</u> , light to medium brown, common interbeds, stringers and lenses of white, orange and apricot, finely textured clay, scattered carbonaceous wood fragments, medium to coarsely textured, moderately compacted.
375-380	<u>Clay</u> , mottled, light, medium and dark brown, occasional medium grey, common orange and white, scattered silt lenses and patches, scattered very coarse grained grey quartz, scattered carbonaceous wood fragments coated with orange limonitic clay, finely to medium textured, moderately compacted.
