DEPTH	STRATIGRAPHIC DESCRIPTION
245-250	<u>Clay</u> , as 240-245 above.
250-255	<u>Clay</u> , as 240-245 above, but medium to coarsely textured, and scattered medium coarse grained quartz.
255-260	<u>Clay</u> , mottled, yellow, orange, white, red, purple, medium brown, scattered carbonaceous wood fragments, rare to scattered small limonitic coated ferruginous nodules, scattered coarse grained quartz, finely textured, moderately compacted.
260-265	<u>Clay</u> , as 255-260 above.
265-270	<u>Clay</u> , as 255-260 above.
270-275	<u>Clay</u> , as 255-260 above.
275-280	<u>Clay</u> , as 255-260 above.
280-285	<u>Clay</u> , as 255-260 above, scattered to common carbonaceous wood fragments.
285-290	<u>Clay</u> , as 255-260 above, common carbonaceous wood fragments 30-40%
290-295	<u>Clay</u> , as 280-285 above.
295-300	<u>Clay</u> , as 255-260 above.
300-305	<u>Clay</u> , as 255-260 above.
305-310	<u>Clay</u> , as 255-260 above.
310-320	<u>Clay</u> , as 255-260 above.
320-325	<u>Clay</u> , as 255-260 above. common angular coarse grained quartz.
325-330	<u>Clay</u> , as 255-260 above.
330-335	<u>Clay</u> , mottled, light and medium brown, orange-brown, orange, yellow, red, white, minor purple, scattered coarse grained quartz, scattered limonitic coated fragments and specks, finely textured, moderately compacted.
335-340	<u>Clay</u> , as 330-335 above.
340-345	<u>Clay</u> , as 330-335 above.
345-350	<u>Clay</u> , as 330-335 above.
350-355	<u>Clay</u> , as 330-335 above.
355-360	<u>Clay</u> , as 330-335 above.
360-365	<u>Clay</u> , as 330-335 above.
365-370	<u>Clay</u> , as 330-335 above.
370-375	<u>Clay</u> , as 330-335 above.
375-380	<u>Clay</u> , medium grey, scattered lenses, patches and inclusions of orange, light orange-brown, white and red clay, scattered carbonaceous wood fragments, scattered coarse to very coarse grained quartz, scattered reddish-brown sideritic clay, coarsely textured, moderately compacted.
