STRATIGRAPHIC DESCRIPTION

315-320	Missing
320-325	<u>Clay</u> , as 290-295 above
325-330	<u>Clay</u> , as 290-295 above and scattered to common carbonaceous wood fragments and carbonaceous mud.
330-335	<u>Clay</u> , medium grey, yellow stringers, scattered to common carbonaceous matter and wood fragments, medium textured, moderately compacted.
335-340	Missing
340-345	<u>Clay</u> , medium and dark grey, minor white stringers, scattered carbonaceous wood fragments and blebs, medium textured, moderately compacted.
345-350	<u>Clay</u> , as 340-345 above, minor brown silt stringers
350-355	Missing
355-360	<u>Clay</u> , medium grey, white stringers, scattered medium grained, sub-rounded, clear quartz, occasional orange glassy mineral, rare carbonaceous wood fragments, finely to medium textured, moderately compacted.
360-365	<u>Clay</u> , medium greyish-brown, white, orange, yellow lenses and inclusions, scattered carbonaceous wood fragments and carbonaceous matter, scattered medium tan siderite clusters, finely to medium textured, moderately compacted.
365-370	<u>Clay</u> , mottled, medium grey, brown, orange, yellow, white, scattered light brown silt stringers and fine grained sand, scattered orange quartz clusters, occasional orange brittle glassy mineral with uneven fracture, scattered carbonaceous wood fragments, coarsely textured, moderately compacted.
370-375	<u>Clay</u> , medium dark and light brown stringers, common white, yellow and orange lenses, streaks and inclusions, scattered medium brown silt stringers, scattered carbonaceous wood fragments, coarsely textured, moderately compacted.
375-380	<u>Clay</u> , medium brown, yellow and white, orange, red stringers, lenses and inclusions, scattered carbonaceous wood fragments, scattered orange quartz clusters, finely to medium textured, moderately compacted.
380-385	<u>Clay</u> , as 375-380 above, rare coarsely-grained clear rounded quartz.
385-390	<u>Clay</u> , medium to dark brown, white, minor yellow, orange and red lenses and inclusions, scattered carbonaceous wood fragments, occasional orange clear glassy mineral, scattered silt stringers, coarsely textured, moderately compacted.
390-395	<u>Clay</u> , medium grey, white, yellow and orange stringers lenses and inclusions, scattered carbonaceous wood fragments, yellow clear brittle glassy mineral, scattered red-brown clay fragment inclusions, medium textured, moderately compacted.
395-405	Missing
