

DEPTH	STRATIGRAPHIC DESCRIPTION
235-240	<u>Clay</u> , as 230-235 above.
240-245	<u>Clay</u> , as 230-235 above.
245-250	<u>Clay</u> , as 230-235 above.
250-255	<u>Clay</u> , as 230-235 above, rare orange inclusions.
255-260	<u>Clay</u> , as 230-235 above.
260-265	<u>Clay</u> , as 230-235 above.
265-270	<u>Clay</u> , as 230-235 above, rare orange inclusions, scattered reddish-brown sideritic clay inclusions.
270-275	<u>Clay</u> , as 235-240 above.
275-280	<u>Clay</u> , as 265-270 above.
280-285	<u>Clay</u> , medium greyish-brown, finely textured, moderately compacted.
285-290	<u>Clay</u> , as 280-285 above, scattered reddish-brown tinges, rare mica.
290-295	<u>Clay</u> , as 265-270 above.
295-300	<u>Clay</u> , as 265-270 above.
300-305	<u>Clay</u> , medium to dark greyish brown, rare orange inclusions, scattered reddish brown sideritic clay inclusions, rare white quartz grains, scattered angular grey quartzite fragments, finely textured, moderately compacted.
305-310	<u>Sandy Clay</u> , medium brown, common orange and rare white inclusions, common fine to coarsely grained, of clear and white quartz, scattered dolerite and quartzite fragments, scattered lenses of orange silt, rare carbonaceous matter, coarsely textured, moderately compacted.
310-315	<u>Clay</u> , medium to dark grey and brown, scattered very finely divided mica, scattered reddish brown and orange sideritic clay inclusions, finely to medium textured, moderately compacted.
315-320	<u>Clay</u> , as 310-315 above.
320-325	<u>Clay</u> , as 310-315 above, occasional orange clay inclusions.
325-335	<u>Core.</u>
335-340	<u>Clay</u> , medium brown, scattered orange and reddish brown clay and rare white inclusions, scattered angular quartzite and dolerite fragments, finely to medium textured, moderately compacted.
340-345	<u>Silt</u> , light grey, light brown, white, scattered orange clay inclusions, rare carbonaceous wood fragments, rare reddish brown sideritic clay inclusions, scattered angular dolerite fragments, medium texture, moderately compacted.
345-350	<u>Clay</u> , light and medium brown, scattered orange, yellow and reddish brown clay inclusions, rare clear quartz grains, scattered grey quartzite pebbles, scattered dark reddish-brown sideritic clay inclusions, medium textured, moderately compacted.
